To obtain Reader's Digest reprints, write Reprints, Reader's Digest, Pleasantville, N.Y., 10570. Prices postpaid to one address: 10—50¢; 50—\$2; 100—\$3.50; 500—\$12.50. Copies of other articles are available on special order. Prices on request.

1. The first part of the paper discusses the importance of the study of the history of the English language. It is argued that a knowledge of the history of the language is essential for a full understanding of the language itself. The paper then goes on to discuss the various factors which have influenced the development of the English language over the centuries. These factors include the influence of other languages, the influence of social and cultural changes, and the influence of technological advances. The paper concludes by stating that the study of the history of the English language is a fascinating and important field of research.

2. The second part of the paper discusses the importance of the study of the history of the English language. It is argued that a knowledge of the history of the language is essential for a full understanding of the language itself. The paper then goes on to discuss the various factors which have influenced the development of the English language over the centuries. These factors include the influence of other languages, the influence of social and cultural changes, and the influence of technological advances. The paper concludes by stating that the study of the history of the English language is a fascinating and important field of research.

3. The third part of the paper discusses the importance of the study of the history of the English language. It is argued that a knowledge of the history of the language is essential for a full understanding of the language itself. The paper then goes on to discuss the various factors which have influenced the development of the English language over the centuries. These factors include the influence of other languages, the influence of social and cultural changes, and the influence of technological advances. The paper concludes by stating that the study of the history of the English language is a fascinating and important field of research.

4. The fourth part of the paper discusses the importance of the study of the history of the English language. It is argued that a knowledge of the history of the language is essential for a full understanding of the language itself. The paper then goes on to discuss the various factors which have influenced the development of the English language over the centuries. These factors include the influence of other languages, the influence of social and cultural changes, and the influence of technological advances. The paper concludes by stating that the study of the history of the English language is a fascinating and important field of research.

5. The fifth part of the paper discusses the importance of the study of the history of the English language. It is argued that a knowledge of the history of the language is essential for a full understanding of the language itself. The paper then goes on to discuss the various factors which have influenced the development of the English language over the centuries. These factors include the influence of other languages, the influence of social and cultural changes, and the influence of technological advances. The paper concludes by stating that the study of the history of the English language is a fascinating and important field of research.
